Preface

I wonder how you felt upon seeing the title of this book, "Messages from the Space Union"? Perhaps you thought it was a tale from the animation world? Perhaps you were a bit attracted by it. The Space Union exists in reality. Fellows from other planets represented in the Space Union are called "Space Angels." Many of them have watched over us, Earth people for several thousands years. Not only have they watched over us, but also they have sent us pieces of advice in a variety of ways.

In the age of Lemuria, they even contacted us through the contactee. These days, they are conveying the messages through such children's tale as "Ami." Sometimes, like Bashar, they send us messages through several channellers. They have worked in the hope that Earth would be a member of the Space Union, some day.

The majority of you may not believe this, but ancestors of Earth people arrived by spaceships from other planets. After that, there were several major immigrations. They also brought in plants or animals. Sometimes, they seem to come from their own original planets so they could investigate how their fellows who immigrated to Earth were doing, or how the plants and animals were adapting to Earth.

Our souls are immortal. We are born in a fresh body on Earth, spend a life of several decades and go back to the world, called heaven. The fresh body is just like the boat of the soul, and Earth is a training place for the soul. Going through some civilizations' decline, our souls are studying on this Earth. Until now, the level of Earth as a place for spiritual training is that of an elementary school.

"From now on, let's hope Earth will become a place for spiritual training at the level of a junior high school!" This is a desperate wish from the guide spirits who have guided us from the beginning of time. Fellows from other planets are also paying attention as to whether the step up of Earth will be possible or not. There were some fellows from other planets who were born in a fresh body on Earth and wish to help us for the step up of Earth such as "Harold" whom you can find in this book. He had a mission as an

auditor, and left Earth at the moment he judged the possibility for the step up of Earth was gone.

It is us, Lemuria Renaissance, never to give up a hope and to keep acting for that. We have published a series of message books which were received from our guide spirits of Heaven until now. This time, we are delighted to present messages from Fellows from other planets that are deeply linked to us, Earth people.

What kind of situation is Earth facing? How is Earth being watched from the space? Please listen carefully to their voices. It would be our pleasure if you could reconsider the situation of Earth for which time is running out and make up your mind to walk together with us.

Here, we have translated this book to English. We have deeply appreciated to the cooperated spirits of heaven and space angels, also to the staff of Lemuria Renaissance.

Foreword

- A Message from Amarie -

My name is Amarie, a medium in Lemuria Renaissance.

This is the fifth spiritual book published in Japanese by Lemuria, and the third book as English translation. This series started from messages of the spirits of Heaven on Earth and messages that came from the so-called extraterrestrials, our fellows from other planets.

I have received so many amazing messages since I was informed of the third plan by the spirits of Heaven. However, I just could not say even a word when I was told that I would receive messages not only from the spirits of Earth, but also from the spirits of the space, of other planets!

First of all, I did not think that I would be able to do that. Besides, I had hardly read the books about the fellows from other planets, and I was not interested in it at all. Of course, I had never heard of the name of Ami or Bashar. However, when a member of Lemuria handed me their books, their messages flew into me as if I were riding on a vibration, as though they would be expected at this moment.

Friends from the space came upon me; all called me in the ancient name of the Lemuria age with nostalgia. At that time, I still could not believe although I had already been told by the guide spirit that I used to be a medium during the Lemuria age, and I used to contact fellows from other planets too. It seemed to be an absolutely true story.

After calmly giving it deep consideration, I realized that it, indeed, sounded quite natural to be called from the space, since Universe is God's body and we all are the children of God wherever we stay.

I think it was explained to me how Earth is watched from the point of view of the space, and what kind of situation Earth people have been facing since the beginning of the space age, including their numerous troubled periods.

At the great jump time to the space age, herein, I present to all of you,

my readers, messages from the friends of other planets, so that you can feel them deeply inside of you, and I really hope in my heart that it would be the prime mover for you who will build a new age on Earth.

Looking forward to the arrival of a new love-fulfilled space age on Earth.

With love and gratitude

Chapter 1

Mother in Orion -Venus of Orion-

Due to the full recovery of your soul, the communication has been enabled. - November 22, 2007.

There was a large-scale immigration to Earth from a planet in the direction of Orion 270 million years ago. Amarie was also among them. This is a communication from Amarie's mother, who lives in the mother planet. She is called "Venus of Orion."

1. I Am Sending Encouragement with Love From the Mother Planet Orion

Amarie:

This is not the language of Earth. She is speaking like,
pipopapipopa
(several ten of seconds pass)
Let me see, shall I?

Venus of Orion:

My beloved daughter in Earth.

I have heard you have been given an important mission this time, so I have been sending our energy from far beyond Orion. I will assist and hope from my heart you could exhibit your power and contribute to this Earth civilization fully. When you think you want our help, remind us any time. We have never forgotten you since you have gone to the blue planet

at the time immemorial. From our mother planet Orion I am sending you encouragement with love. We have been very pleased to send you our energy again and collaborate. Make your best effort.

Here, you are making use of yourself and also you are serving the Divine Spirit of Earth. We let you all go to Earth from our planet, and I have found it was not useless by any mean. With the honor of our planet, I will encourage you with our joy.

Remember. We are always by your side. I wish from my heart the planet Earth reaches a state in which it will be recognized as a planet of love and a member of this cosmic civilization. Please always remember us without assuming yourself alone by any mean. You could not contact us directly for a long time. Now, your soul has been recovered completely, so we can contact you. Without suffering and worrying by yourself, and while relying of us, receive our energy in this style.

I have been a person as your mother, and a father. Take the communication anytime. Being united with a person of Manu, now you can receive our communication. We will cooperate with you hereafter, even though you have been in loneliness up until now. All the friends of Universe have been encouraging Earth.

So, on this occasion, do not forget that our companions of Universe have been supporting the Divine Spirits of Earth, various gods of Earth, and you all, please send us a message when you have something we could be of help with.

2. Play God's Melody of Love on the Ground

An antenna has been rebuilt. When there is permission from the Divine Spirit of Earth, our Orion's intention to the ground through your words can be conveyed in this way.

Please spread anyhow a heart of love and a spirit of Orion in yourself through the word. Please play the melody of love from our loving God on the ground. It is not the only way for God to spend all the time on the boring teachings about the law and theories.

Through great art and grand beauty, it has become possible to play the will of God, the love of God, the will of Cosmos, and the law in our lives and in our way of life. That is to play a melody as a planet of love, to make this Earth into a vibration of a planet of love. Please present this to all. You don't need to tell difficult matters. Only you play what you are feeling in yourself, and present them to all the people. That is all.

As everybody could sense, the melody of love created by God has been played in an animal, in a plant, even in a creature in the deep sea. Everything is a vibration of the love. All you have to do is just to express it. Let me see, you must not forget ours. Through your mind, when you direct your mind to us, now you can convey the messages of our Orion from your mouth. You can synchronize to us.

For that purpose, I descended this energy to you today. You might be surprised. But, your true job begins from now on. Make your best effort. Be sure you are not alone. Borrowing the power of all the companions, please fulfill this great mission.

When you fulfilled the great mission and become free at some point, please come back to this planet once again.

We are looking forward to meeting you again.

From Your Mother

Elijah

With Space Angel - February 4, 2006

This message is from Elijah the prophet in the Hebrew Bible (the Old Testament).

1. A New Age of Earth Has Come

Elijah:

Greetings everyone, I am Elijah.

Today, I have come to contact you. First I will greet you, then I will explain how things are to be before receiving messages from our space friends.

On the turning point of Earth called the "shift up" of the Earth Spirit Group, the present situation is that we, the ones who are trying to guide the spiritual growth on Earth scale, are asking and approving the space friends who were from various planets of the Space Union, and we have been helping each other as our old friends since ever, in order to open people's eyes on Earth, to flow a stream of Earth's spiritual civilization into a new value, by blending the messages with the space friends.

Many people are still showing interests only in the messages from Universe so called 'New Age' for some sensational messages from UFO, while all these make the atmosphere of an age, looking for a new point of view, carrying all the spiritual stream, which has been taught as a Divine Truth until now from ancient times, to the highest, merging into a viewpoint of Universe, that is the dawn of a new age is coming to this

Earth.

Until now, various things have been told independently, such as contacting to UFO, interests to Universe, Aquarius Age in a spiritual stream, and spiritual channelling the spirits. And, the other are flows of Divine Truth through the various religions by such myths of gods since the ancient age. Those two have been told independently, and you have accepted them as specific information of distinct.

Those things being separated, now, are going to be brought together. Concerning with a concept of great God, energy of love aiming the grand harmony as energy of the source in Universe is called God. Within the flow of love of God, we, our space friends and us as children of God, all the phenomenon and creation, everything live and lived, not only people on Earth but all friends from every planet, plants, minerals, animals in those planets, all are children of God and expression of energy of God.

Within our existence, something new has been coming — some new creation, being created resembling God, being created resembling His figure, possibility of ours, and the ability of ours, by the power of perception making it higher, a grand turning point of great spiritual civilization.

On the dawn now you are here and you must convey this through Lemuria too. Unless you understand it fully, people who have heard spiritual messages from those popular gods like Jesus Christ, Buddha or Moses will think they are good as they are, but Lemuria could be misunderstood, as if the flow of Divine Truth had been terminated and it has moved toward a funny sensational direction like a new age.

However, this is, as one of the backbones in a large-scale world to be in consistency, now certainly going up the steps, it should be a quite pleasant situation. To the receiving side as well as to the surrounding people, you must convey it.

Only based on such a perception, it would become able to listen to and learn from the space friends from the various planets, about their opinions, their personalities and on their backbones. They have been watching the civilization of Earth for a long time with Earth, holding the peculiar cultures of their own. Otherwise, it might be said that Lemuria has moved in the direction of sensationalism and "gone crazy."

However, if people can accept the words of our invisible world as a channelling, and if they can accept them as spiritual messages, and can certainly believe in the existence of a world whose vibration is different from the material world, then, even if you hear the words of friends who exist in a life form in the world that is an extension of this three-dimensional Earth, I think many people in this age could accept the possibility of such a world. It would not have been accepted if it were decades ago.

Now the time is coming when you must understand more firmly that what is living in the flow of a great Universe is our existence, which is opening its mind towards Universe. It is born on this planet and through its practices, then eventually it is also going to transmigrate to the inter-planetary level, coping with what is the basis of the planet Earth as a member of the cosmos in the real sense and what is the root of Earth people.

In that sense, I sincerely hope that you open your mind fully, rather than in a narrow way of thinking such as believing only the words of the gods of your own religions. Listen and take seriously the thought of the space friends called space angels, who are devoted to Earth, with a different point of view from ours, watching Earth with eyes of deep love, trying to help your growth despite your many troubles.

2. Space Angels Watching Earth from Ancient Times

The spiritual world I belong to connects to the cosmic region, which connects further to other planets and other cosmic entities. So, I often go out and talk with the ones belong to other cosmic entities, and now in this particular period I am negotiating with them how far they help us and are involved in this civilization of Earth, or not to interfere anymore. This is part of my role.

Therefore, the ones who are allowed to come here this time have known the various flows of the civilizations of Earth for a long time. Now they have owned individual roles on the turning point of the growth of

Earth in the spiritual civilizations leading to this shift up, and they have come to assist Earth and Earth's people. They have those missions, and I will introduce you to those persons here.

You might feel somewhat a sense of discomfort when you listen to the words. However, the more you listen to the stories of beings who have a different personality, the more you will learn splendid things because of their differences. And through the differences, what kind of position are we Earth, the Divine Truth of Earth's people descended from this flow, and we the Earth's people in? What kind of personality and role do Earth's people have, and are they Earth people who have formed such a civilization? You could also taste its personality put in Earth and Earth's people.

Having said that, the more you listen to the stories of beings who have different personalities, the more you learn wonderful ideas because of their differences and through their differences. We, Earth, Earth's people's Divine Truth which contains this flow of this Divine Truth, can also enjoy our originality in the Earth's people in what kind of position, what kind of personality and part we have, and that Earth people who have formed the civilization.

All is wonderful because you are different. God created you as all of you are different and inevitably put values in you as a wonderful child of God. So, I hope you open the door and windows of your heart, to learn more by becoming receptive to the differences and variations, receive messages from as many cosmic friends, and convey it towards the people on ground.

Only because Earth people have been listening to the teachings Moses, Jesus Christ, El-Ranty, and El-Kantala's Buddhism could they admit the extension of the Divine Truth is being connected to the Cosmic Divine Truth. Earth people have to learn it can never be a disrupted and dissolved wrong way and is connected to what is beyond the chain of consistent Divine Truth.

That is the Law of the Cosmos, a law leading to Universe, corresponded to the ascension of the Divine Truth of Earth, the law of love, and teachings of God. And the time has come for the Earth's people learn the law of love on the cosmic scale. I wish you could understand that the time, celebrative growth of time, has come, and you welcome it from

your heart and listen to their word.

They have been supporting the civilization on Earth without coming to the surface and have been assisting without being noticed by anyone. Even not getting any valuation by anyone, wishing others to come up to the level of theirs, even to the planets like Earth, they are such ones who have been educating beyond planets to planets.

There are people on Earth who are now at war loving only their country. They are unable to go beyond the categories of the countries and races, and exposing ego fully they are hurting each other and killing each other though a war.

Space angels in Universe do not concern themselves with such as countries or planets. They do not even care about their mother planet. They go to the developing countries, other than their own planet, and practice love to the ones who need them, even a little, without name, very quietly, with strong passion, telling love without ego, taking someone else's growth as their pleasure, practicing the love given by God.

Going around Universe, they are responding to the requests from the ones they can help, from the ones of the planets, the guiding spirits of the planets. In charge of some of those planets as their part, they are guiding the planets.

The ones who are coming out to give you messages now have been in charge of Earth for a long time. They are the ones who have been watching Earth since ancient times, not only for this civilization, but the ages of Atlantis, Lemuria, and Mu, more than you.

The spiritual world in which we exist is totally a different dimension from the three dimensions in terms of spirituality, although we see and call it the real world. Where you live, the physical three dimensions are considered as part of a non-existent, not real, temporal world by the ones living in the real world, especially in the spiritual world called the heaven.

Even though, from the ones of Universe point of view, they regard us, both human beings in the three dimensions like you and spiritual beings like us, as the same life entities in the world of Earth. We are considered as some beings like you who are living on the surface in the three dimensions, some beings like us who are living inside of Earth, inside of the spiritual part of Earth consciousness.

Compared to that, it is the fact that they are advanced beings who can get in touch with, not considering inside or outside of Earth, directly to our spiritual realm and to the three dimensions at the same time, because they are beyond the planet Earth. They may have physical bodies, but many of their physical bodies have the higher dimension beyond the three dimensions.

Most of the beings who go out to Universe and have already mastered such a civilization, have learned the basic Divine Truth of Cosmos and, as a result, they learned skills to go out to Universe.

That means most of them are not so violent as the people on Earth. They regard themselves as civilized, in other words, aliens who have a great deal of pride in the high standard of their spirituality after shifting up their spiritual dimension, considering the fact that the level of their culture and the level of the spirit are not so primitive. We are considered still as an elementary level of planetary humans, who are bounded to Earth. In that sense, we do not have enough perception so that we are not allowed to get out of Earth freely.

3. Be Earth people on a Cosmic Viewpoint

In order to teach you the Law of the Cosmos, uniting Earth with the Divine Truth, putting things together globally on Earth scale, which is where we wanted to take you as our final destination we want help you develop a cosmic viewpoint, learning the real structure of the cosmos, the real form of love of the cosmos, as a member of the Space Union. We say that it was an ultimate great plan, the great plan of salvation, especially with the wish, to lead the whole Earth in the process of the Earth's people going back to their own form with the firm understanding that the Earth's people themselves are originally the children of God.

Before reaching the cosmic level perception, Earth people must understand that the human existence is not only the physical entity, but there is a spirit in a spiritual meaning. The spirit is eternal and transmigrating, the next understanding is that, Earth is now showing the
